

# HISTORIC WINDOWS WORKSHOP

Two dates are scheduled for this one-day class:

Saturday, October 25 & Sunday, October 26, 2008

The Historic Windows Workshop at the Sierra 2 Center is an active learning experience, where participants rotate from the classroom to various stations, and see in practice the techniques of basic repair, maintenance, weatherization, and restoration of historic wood windows. Volunteer instructors from the community will demonstrate how they worked on their own windows, preserved the character of their historic homes, and saved their pocketbooks! Historic windows were made to be taken apart and repaired, and with basic guidance, anyone can make their windows work as they originally did - with ease of operation and weather tight - and beautiful!

Reservations are required as space is limited; confirmation with exact time and room location will be sent upon receipt of registration. The fee of \$20 helps defray costs, and includes lunch. For further information, logon to [www.Sierra2.org](http://www.Sierra2.org) (click on "Historic and Preservation Information"), email [historicwindows@Sierra2.org](mailto:historicwindows@Sierra2.org), or call the Sierra 2 office at 452-3005.

## Registration
